EXPERIENCE

Front-End Developer Intern Sept 2022

SkillUP by Simplilearn *Work from home*

- Collaborated on various feature enhancements while optimizing codebase for **increased code reusability** and maintainability.
- Several npm packages were selectively installed to maximize coding productivity, which led to a 50% decrease in development time.

MAJOR PROJECTS

1. **PhotoShop :** Source Code

   • Create a responsive **sophisticated Photoshop** platform with editing tools **(color effect, black and white, save)**, effective tools **(rotation, mirror)**, picture processing, and filtering.

2. **Social app Prototype :** Source Code

   • Create a responsive prototype social app that allows you to publish messages and have them appear on the device similar to social media.

3. **To-Do List :** Source Code

   • Create a **responsive to-do list** website where you may include **quotes, tasks, ideas, and remarks as dates.**

ACHIEVEMENTS

- Successfully participated and secured **5th Position** in **Kriyeta 2.O Hackathon**.
- Solved over **100 coding questions** on various platforms.
- As an intern trainee for vacational training, I work at BHEL.

EDUCATION
